Education

B.S. Computer Engineering
Laguna College of Business
and Arts (Aug 2026 - Aug 2021)

CAD Design
PowerSkills Inc. (Mar 2015 - Dec 2015)

Skills

- Revit
- Sketchup
- Enscape
- Solidworks
- Blender
- Unity
- Arduino IDE
- Android Studio
- Visual Studio
- Photoshop
- Illustrator
- Premier
- Filmora
- HTML, CSS3, PHP, JS
- WordPress / Elementor
- Woocommerce
- React Native / Expo
- Next.js
- Server Management (Oracle)
- Tailwind CSS
- Firebase / Mysql / Supabase

Professional Summary:

A Full-Stack Web and Mobile Developer experienced in end-to-end application development—from planning and architecture to development, testing, and publishing apps on the App Store and Google Play. I build scalable, secure, and user-friendly applications, managing frontend and backend systems, API integrations, databases, and cloud deployments. Detail-oriented and focused on delivering reliable, production-ready solutions.

Work Experience:

Freelance Web & Mobile Developer | Graphic Designer | Video Editor May 2017 - Present

- Designed and developed responsive websites and cross-platform mobile applications tailored to clients' requirements, handling frontend, backend, and database integration.
- Delivered end-to-end solutions, from concept and wireframing to deployment and publishing on web platforms, App Store, and Google Play.
- Created custom graphics, branding assets, and visual content to enhance client marketing and digital presence.
- Produced high-quality videos, including editing, motion graphics, and post-production, to support promotional campaigns and storytelling.
- Managed multiple projects independently, ensuring timely delivery, client satisfaction, and adherence to best practices in UI/UX and code quality.

Full Stack App and Web Developer May 2023 - Present

- Designed, developed, and maintained cross-platform mobile applications using React Native, delivering responsive and user-friendly experiences on iOS and Android.
- Built and optimized web applications using modern JavaScript frameworks (React / Next.js) with a focus on performance, scalability, and clean UI/UX.
- Developed and integrated RESTful APIs and backend services to support mobile and web app functionality.
- Managed databases and backend logic using Firebase / Supabase, ensuring data integrity and security.
- Implemented authentication, authorization, and role-based access control for secure user management.
- Deployed and maintained applications on cloud infrastructure (Oracle VM / Firebase / server environments), handling environment configuration and updates.
- Integrated third-party services such as payment gateways, messaging APIs, NFC.
- Collaborated with designers, stakeholders, and QA to translate business requirements into technical solutions.

CAD Engineer June 2018 - Jan 2022

- Reviewed customer requirements to ensure that all design elements were met.
- Developed 3D CAD models and drawings for complex parts to support manufacturing operations.
- Determined quality, cost and quantity of required materials
- Wood and Metal Fabrication Design
- Racking Systems

Graphic Designer Jan 2017 - May -2018

- Created logos, flyers, and other marketing materials.
- Designed graphics for social media campaigns, such as Facebook ads and Instagram posts.
- Edited photos in Photoshop to enhance their quality for use in print or digital formats.
- Collaborated with clients to determine design requirements and objectives.
- Discussed and determined layout design.
